Vann Data offers e-waste drop-off

By CECIL G. BRUMLEY, BUSINESS EDITOR

DAYTONA BEACH -- In conjunction Earth Day on April 22, Vann Data Services, 1801 Dunn Ave. (corner of Bill France Boulevard) will help the public "go green" by offering a drop-off spot for used personal computers, monitors, printers, scanners, laptops and other electronics.

Vann Data is partnering with A1 Assets, which will transport the old equipment to its facility to salvage parts for reuse and dispose of components that are no longer usable.

Consumers are asked to donate \$1 per item to the Stewart-Marchman-Act Foundation. SMA provides comprehensive addiction and mental health treatment in Volusia and Flagler counties.

This is the third year for Vann Data to collect used electronics. In December 2008, the company collected 7,154 pounds and, in April 2009, collected 13,441 pounds.
